Portfolio

Professional Summary

Software Engineering undergraduate with hands-on experience as a Software Engineering Intern, contributing to real-world web applications. Skilled in full-stack development, API integration, and database management, with a focus on writing clean and maintainable code. Experienced in working within Agile team environments, with strong problem-solving, debugging, and communication skills. Eager to learn, adapt to new technologies, and grow as a software engineer while contributing to impactful projects..

Education

University of Kelaniya

B.Sc (Hons) in Software Engineering

2023 – Present

CGPA: 3.65 / 4.00

J/Vayavilan Central College

G.C.E Advanced Level (A/L) — Combined Maths: A | Physics: B | Chemistry: B

2018 – 2021

Z-Score: 1.6040

J/Vayavilan Central College

G.C.E Ordinary Level (O/L)

2011 – 2017

8 A's, 1 B

Work Experience

CodeLantic

Trainee Software Engineer (Back End)

Nov 2025 – Present

Onsite

- Developed backend services using **Spring Boot**, building scalable and maintainable RESTful APIs.
- Designed and managed relational databases using **MySQL**, implementing efficient schemas and optimized queries.
- Utilized **Flyway** for database version control and migration management across environments.
- Implemented inter-service communication using **Feign Client** and managed routing via an **API Gateway** in a microservices architecture.
- Integrated **WebSocket** for real-time communication features within the application.
- Containerized applications using **Docker** and gained hands-on experience with deployment workflows on **AWS**.
- Learned and applied **CI/CD pipeline** concepts for automating build, test, and deployment processes.
- Tech Stack:** Spring Boot, MySQL, Flyway, Feign Client, API Gateway, WebSocket, Docker, AWS.

Projects

Fuel Management System | Group Project

[Source Code](#)

- Built a web and mobile solution for **QR-based fuel distribution**, improving operational efficiency by **30%**.
- Implemented **multi-role access control** for secure and structured system usage across user types.
- Contributed to **60% of backend development** using Spring Boot, focusing on API design and business logic.
- Tech Stack:** React.js, Spring Boot, React Native, JWT, QR Code

Hostel Management System | Individual Project

[Source Code](#)

- Developed a centralized platform for room allocation, maintenance requests, and fee management.
- Automated **80% of manual processes**, significantly improving response time and operational efficiency.
- Implemented secure authentication and payment processing using **JWT** and **Stripe API**.
- Tech Stack:** React.js, Spring Boot, MySQL, Tailwind CSS, Stripe API, JWT

E-Learning Platform | Individual Project

Source Code

- Built a full-stack platform with **role-based dashboards** for students and administrators.
- Implemented attendance tracking, grade management, and online payment features.
- Reduced administrative workload by **40%** through task automation and secure integrations.
- Tech Stack:** React.js, Node.js, MySQL, JWT, EmailJS, Stripe API

Event Booking System | Individual Project

Source Code

- Developed an event booking platform with seamless UX and **QR code-based ticketing** for secure entry.
- Built backend services using **Spring Boot** with **Feign Client** for microservice-to-microservice communication.
- Containerized the full application using **Docker** and integrated **Stripe** for secure payment processing.
- Tech Stack:** React.js, Spring Boot, MySQL, Tailwind CSS, Stripe API, JWT, Docker, Feign Client

Technical Skills

Languages:Java, JavaScript, TypeScript, SQL, C, HTML, CSS

Frameworks & Libraries:Spring Boot, React.js, Node.js, React Native, Tailwind CSS

Databases:MySQL, PostgreSQL

Tools & Platforms:Docker, AWS, Git, GitHub, Postman, Flyway, WebSocket

Concepts:REST APIs, Microservices, JWT Authentication, CI/CD, Agile/Scrum, OOP

Achievements

HackerRank Badges: Problem Solving, Java, SQL, C

2024

2024

Junior Hack

Volunteering Experience

Executive Committee Member

June 2025 – Present

Software Engineering Students' Association, University of Kelaniya

- Managed events, coordinated inter-batch activities, and facilitated student engagement and community programs.

Web Development Team Member

Jan 2024 – Present

Tamil Student Association, University of Kelaniya

- Managed and maintained the association website, implementing regular updates, feature improvements, and necessary fixes.

Executive Committee Member

Jan 2025 – Jan 2026

Tamil Student Association, University of Kelaniya

- Organized and executed association events, coordinated batches, and facilitated student engagement initiatives.
